

ISLAND I

A complete redesign of our classic twin door stove with cleaner lines, beautiful symmetry and a larger picture window for a spectacular view of the fire. This stove boasts an efficiency of over 85% and an extremely low smoke particle level of 9mg/m³ (the Ecodesign limit is 40mg/m³). With ground breaking new burn technology the ISLAND I not only meets Defra exemption limits (allowing wood to be burnt cleanly in smoke control areas) but vastly exceeds the new 2022 Ecodesign standards - taking this iconic stove into the future.
