New standards to design and enjoying a fire are clearly set by the new Ignite XL series, which allow an unprecedented panoramic view of the flames. The colour of the LED illuminated interior can be adjusted to suit any occasion. Its silent heater starts up pleasantly quickly through concealed vents, working intelligently and efficiently. Still, it requires little space and effort to install. A high quality series throughout.

- Edge-to-edge glass offers a flawless panoramic view of the flames from any angle
- Fuel bed decorated with reflecting acrylic stones that can be illuminated in different colours
- Fast heat up thanks to the heat-boost function and with digital thermostat for easy temperature control
- Patented ComfortSaver heating system - Eco-mode for a lower power consumption
- Driftwood available as accessory
